

Senior Research Analyst

- **Securities Firm**
- **Regional Exposure**
- **Excellent career progression opportunity**

Our client is a Multinational Securities Firm that focused on providing a broad range of financial services to the region, including securities and futures brokerage, bonds trading, wealth management and corporate finance. They are now seeking for a high caliber candidate to join their team for company expansion.

The incumbent will report to Research Manager.

Responsibilities:

- Conduct channel-checks, investigate independent research resources, create financial models, study academic opinions and seek other objective sources of information
- Work closely with other Consumer analysts in a team-oriented environment to bring a broader analysis to reports
- Prepare differentiated research reports and provide timely electronic updates for the firm's sales force and institutional clients

Requirements:

- Bachelor degree or above in economics, finance, accounting or related disciplines,
- At least 3 years working experience in equity research.
- Holder of SFC RA 4 license as a must.
- Strong presentation skill, under pressure and deliver reports in a highly changing environment.
- Excellent oral and written presentation skills in Mandarin and English
- Willing to travel occasionally is required.
- Less experience will be considered as Research Analyst.

To apply, please forward your resume quoting job reference no. to GSI8425 jonathan.ho@gsiconsultants.com.hk or contact **Jonathan Ho** at +852 3755 5477. All applications will be treated with strict confidentiality. Only short-listed candidates will be notified.
